

The Ravinia III is an efficient design that doesn't come at the expense of comfort and luxury.

The outdoors beckons, as much of the interior looks upon the huge dual lanai area, giving this home plan a spacious feel. The corner pocket doors from the family room opening to the summer kitchen make entertaining a breeze.

The indoor kitchen is surrounded around by the family room, living room and dining room making it the center of activity. There is a large walk-in pantry, loads of counter space and seating. You will find ample storage - a trait throughout this home.

The split floorplan gives you added privacy in your massive master suite with a spectacular garden shower and tub. The guest rooms are conveniently situated on the other side of the home with a shared bathroom.

The Ravinia III offers carefree, easy maintenance living in a delightful Mediterranean style house plan.
